Best phone answering service for small business

Business answering services leverage human or automated stewards to answer incoming calls, receive messages, and route callers for extensions. Organizations can use them to receive calls at all hours or at certain times. We tested the best answering services on the market and evaluated them based on price, stock and 911. Top 6 Answering Services for 2020 Which voice answering service is right for you? Answer some questions about your business and we'll give you a custom product match on how we value business answering services should be able to take incoming call traffic and greet your customers with a live human receptionist or an automated flight attendant. However, the best systems should be either intuitive and affordable enough to use in small businesses or include advanced features like sales tools and receptionist scheduling. We've assessed answering services based on the following services: Live receptionist service at an available price or custom Auto Sorter scripts and custom services such as convenient call wrapping Using customer support Based on these criteria, we recommend RingCentral for most companies looking for a new answering service. The service is easy to use, affordable, and provides a powerful automated monitor. The fact that it also comes with a full business phone system makes it ideal for most small business teams. RingCentral: The best general answering service for RingCentral small businesses, an Internet Voiceover Protocol (VoIP) business system with an automated virtual receptionist that welcomes and routs calls to the desired expansion, has plans from $24.99 per user, per month on an annual basis. It also comes with video conferencing for up to 200 people per meeting, as well as a variety of business phone features. RingCentral is best for businesses that want a VoIP phone system with an auto attendant but don't need a live receptionist to answer calls. And if you sign up for today's service, you'll get your first month for free, 20% off thereafter, and one free phone after you've purchased a phone. Start today. RingCentral RingCentral controller pricing RingCentral's small business pricing for two to 19 users ranges from $19.99 to $44.99 per user, per month on an annual basis and volume discounts are available as you add additional users from now until December 31, RingCentral offers 25% off all new subscription plans as well as two months of free service.
